FEDERAL AND STATE LEGISLATION

CHAPTER I.

THE ORGANIC ACT.

[It will be noted that the Organic Act is here set out as originally passed except where specially amended. In that case the amendment is given. The sections of the Political Code are printed in smaller type after the section on which they were based, and for the following reason: after the passage of the Organic Act in 1868 it was codified with several modifications and embodied in the Political Code in 1872. According to Section 18 Pol. C. this worked a repeal and abrogation of the entire Organic Act. The State Constitution, ratified in 1879, by Art. IX, Sec. 9, (page 66) provided that the organization and government of the University should be perpetually continued in the form and character prescribed by the Organic Act as amended. This has revived the Organic Act and its amendments, and made it, as amended, irrepealable as to its fundamental plan.]

An Act to create and organize the University of California.

[Approved March 23, 1868. Stats. 1867-8: 248.]

SECTION 1. A State University is hereby created, pursuant to the requirements of Section four, Article nine, of the Constitution of the State of California, and in order to devote to the largest purpose of education the benefaction made to the State of California under and by the provisions of an Act of Congress passed July second, eighteen hundred and sixty-two, entitled an Act donating land to the several States and Territories which may provide colleges for the benefit of agriculture and the mechanic arts. The said University shall be called the University of California, and shall be located upon the grounds heretofore donated to the State of California by the President and Board of Trustees of the College of

Creation of the
University.

and to consist
of various

California. The said University shall be under the charge and control of a Board of Directors, to be known and styled "The Regents of the University of California." The University shall have for its design, to provide instruction and complete education in all the departments of science, literature, art, industrial and professional pursuits, and general education, and also special courses of instruction for the professions of agriculture, the mechanic arts, mining, military science, civil engineering, law, medicine and commerce, and shall consist of various colleges, namely:

First—Colleges of Arts.

Second—A College of Letters.

Third—Such professional and other colleges as may be added thereto or connected therewith.

POL. CODE SEC. 1385. The University of California, located in Alameda County, has for its object general instruction and education in all the departments of science, literature, art, industrial and professional pursuits, and special instruction for the professions of agriculture, the mechanic arts, mining, military science, civil engineering, law, medicine, and commerce.

POL. C. SEC. 1386. There must be maintained in the University:

1. A College of Letters.
2. A College or Colleges of Science, including Agriculture, Mechanics, Mining, Engineering, Chemistry, and such other specialties as the Board of Regents may determine.
3. Colleges of Medicine and Law.
4. Such other Colleges as the Board of Regents may establish.

Under subdivision 4 the Regents find authority to accept the Lick Observatory and to make it a part of the University.

See Report of Law Committee, SECRETARY'S REPORT, 1887: 75.

See notes to Sec. 12 of the Organic Act, page 30.

The Organic Act creates the University a public corporation, with the Regents a corporate entity to be considered a part of, and ancillary

to, the parent and principal institution. The property of the University is left with it, and the custody and control of that property is given to the Regents.

Estate of Royer, 123 Cal. 615.

The Regents are not public officers. See page 28.

SEC. 2. Each full course of instruction shall consist of its appropriate studies, and shall continue for at least four years, and the faculty, instructors and body of students in each course shall constitute a college, to be designated by its appropriate name. For this purpose there shall be organized as soon as the means appropriated therefor shall permit—

Each course
to continue
four years

First—The following Colleges of Arts: A State College of Agriculture; a State College of Mechanic Arts; a State College of Mines; a State College of Civil Engineering; and such other Colleges of Arts as the Board of Regents may be able and find it expedient to establish.

Names of
Colleges

Second—A State College of Letters.

Third—Colleges of Medicine, Law and other like professional colleges.

POL. C. SEC. 1387. The College of Letters must embrace a liberal course of instruction in language, literature and philosophy.

POL. C. SEC. 1388. Each full course of instruction consists of its appropriate studies and courses, to be determined by the Board of Regents.

This section (2) has been interpreted by the Regents, as follows:

According to law and the rules of the Regents there is nothing which forbids the recognition of departments in the University.

There are colleges and courses now established at Berkeley. A college is simply a course.

Each college and each course consists of the faculty instructors and body of students.

Each college and course embraces several departments. Thus the College of Letters includes the Department of Physics, Mathematics, English, etc.

A department is properly defined as the professors and instructors teaching a given subject, or a group of allied subjects.

SEC. 3. A proper degree of each college shall be conferred at the end of the course upon such students as, having completed the same, shall, at the annual examination, be found proficient therein; but each college shall also have a partial course for those who may not desire to pursue a full course therein; and any resident of California, of the age of fourteen years or upwards, of approved moral character, shall have the right to enter himself in the University as a student at large, and receive tuition in any branch or branches of instruction at the time when the same are given in their regular course, on such terms as the Board of Regents may prescribe. The said Board of Regents shall endeavor so to arrange the several courses of instruction that the students of the different colleges and the students at large may be largely brought into social contact and intercourse with each other by attending the same lectures and branches of instruction.

POL. C. SEC. 1402. The proper degree of each college must be conferred at the end of the course upon such students as, having completed the same, are found proficient therein.

POL. C. SEC. 1392. Any resident of California, of the age of fourteen years or upwards, of approved moral character, may enter himself in the University as a student at large, and receive tuition in any branches of instruction at the time when the same are given in their regular course, on such terms as the Board of Regents may prescribe.

SEC. 4. The College of Agriculture shall be first established; but in selecting the professors and instructors for the said College of Agriculture, the Regents shall, so far as in their power, select persons possessing such acquirements in their several vocations as will enable them to discharge the duties of professors in the several Colleges of Mechanic Arts, of Mines and of Civil Engineering, and in such other colleges as may be hereafter established. As soon as practicable a system of moderate manual labor shall be established in connection with the Agricultural College, and upon its agricultural and ornamental grounds, having for its object practical education in agriculture, landscape gardening, the health of the students, and to afford them an opportunity by their earnings, of defraying a portion of the expenses of their education. These advantages shall be open in the first instance to students in the College of Agriculture, who shall be entitled to a preference in that behalf.

POL. C. SEC. 1404. A system of moderate manual labor must be established in connection with the Agricultural College, upon its agricultural and ornamental grounds, for practical education in agriculture and landscape gardening.

SEC. 5. The College of Mechanic Arts shall be next established; and in organizing this, or any other college, the same regard hereinbefore indicated shall be had for the general acquirements of each professor and instructor, so that he may be able to give general and special instruction in as many classes and courses of instruction as possible; and inasmuch as the original donation, out of which the plan of a State University has had its rise, was made to the State by

virtue of the aforesaid Act of Congress entitled "An Act donating land to the several States and Territories which may provide colleges for the benefit of agriculture and the mechanic arts," approved July second, eighteen hundred and sixty-two, the said Board of Regents shall always bear in mind that the College of Agriculture and the College of Mechanic Arts are an especial object of their care and superintendence, and that they shall be considered and treated as entitled primarily to the use of the funds donated for their establishment and maintenance by the said Act of Congress.

SEC. 6. The College of Mines and the College of Civil Engineering shall be next established, and such other colleges of arts as the Board of Regents may be able to establish with the means in their possession or under their control; and in order to fulfill the requirements of the said Act of Congress, all able-bodied male students of the University, whether pursuing full or partial courses in any college, or as students at large, shall receive instruction and discipline in military tactics in such manner and to such extent as the Regents shall prescribe, the requisite arms for which shall be furnished by the State.

See Chap. XVI, p. 114.

SEC. 7. The Board of Regents, having in regard the said donation already made to the State by the President and Board of Trustees of the College of California, and their proposition to surrender all their property to the State for the benefit of the State University, and to become disincorporate and go out of existence as soon as the State shall organize

the University, by adding a Classical College to the College of Arts, shall, as soon as they deem it practicable, establish a College of Letters. The College of Letters shall be coexistent with the aforesaid College of Arts, and shall embrace a liberal course of instruction in languages, literature and philosophy, together with such courses or parts of courses in the aforesaid College of Arts as the authorities of the University shall prescribe. The degree of Bachelor of Arts, upon due examination, and afterwards the degree of Master of Arts, in usual course, shall be conferred upon the graduates of this college. But the provisions herein and hereinbefore contained regarding the order in which the said colleges shall be organized shall not be construed as directing or permitting the organization of any of the specified colleges to be unnecessarily delayed, but only as indicating the order in which said colleges shall be organized, beginning with the College of Agriculture, and adding in succession to the body of instructors in that and the other colleges, such other instructors as may be necessary to organize the other colleges successively in the order above indicated. Only the first year's course of instruction shall be provided for in each college at first, the other successive years courses being added in each year as the students advance to the same, until the full course in each college is established; *provided*, however, that the Board of Regents may organize at once the full course of the College of Letters, if in their judgment it is expedient so to do in order to allow the College of California to immediately convey the residue of its property to the State for the benefit of the Univer-

sity, and to become disincorporate and go out of existence, pursuant to its proposition to that effect.

POL. C. SEC. 1403. The degree of Bachelor of Arts, and afterwards the degree of Master of Arts, in usual course, must be conferred upon the graduates of the College of Letters.

SEC. 8. The Board of Regents may affiliate with the University, and make an integral part of the same, and incorporate therewith, any incorporated College of Medicine or of Law, or other special course of instruction now existing, or which may hereafter be created, upon such terms as to the respective corporations may be deemed expedient; And such college or colleges so affiliated shall retain the control of their own property, with their own Boards of Trustees, and their own Faculties and Presidents of the same, respectively, and the students of those colleges, recommended by the respective Faculties thereof, shall receive from the University the degrees of those colleges; *provided*, however, that the President of the University shall be, *ex-officio*, a member of the Faculty of each and every college of the University, and President of such Faculty.

Affiliation of
Colleges of
Medicine,
Law, etc.

President must
be President of
all Faculties.

POL. C. SEC. 1396. The Board of Regents may affiliate with the University any incorporated college of medicine, law, or other special course of instruction, upon such terms as may be deemed expedient; and such college may retain the control of its own property, have its own Board of Trustees, Faculties, and Presidents, respectively; and the students of such colleges, recommended by the respective Faculties thereof, may receive from the University the degrees of those colleges.

A college in affiliating with the University becomes subject to the laws applicable to the University except when otherwise provided either in the Organic Act or the Act creating the special college. The two constitute one institution, governed by the same laws, with only such special provisions as might be required for the harmonious

operations of its different branches. An affiliation imports a subjection to the same general laws and rules that are applicable to the parent institution, with such special exception as may expressly be made and such as arise from the very nature and purpose of the affiliated institution.

Foltz vs. Hoge, 54 Cal. 28.

Hence, there being no special prohibition, females are entitled to be admitted to the Hastings College of the Law under the same general policy which admits them to the University.

SEC. 9. The examinations for degrees shall be annual, and the Board of Regents shall take measures to make such examinations thorough and complete. Students who shall have passed not less than a full year as resident students in any college, academy or school in this State, and, after examination by the respective faculty of such college, academy or school, are recommended by such faculty as proficient candidates for any degree in any regular course of the University, shall be entitled to be examined therefor at the annual examination; and, on passing such examination, shall receive such degree for that course, and the diploma of the University therefor, and shall rank and be considered in all respects as graduates of the University. All students of the University who have been resident students thereof for not less than one year, and all graduates of the University in any course, may present themselves for examination in any other course, or courses, at the annual examinations, and on passing such examination, shall receive the degree and diploma of that course. Upon such examinations each professor and instructor of that course shall cast one vote upon each application for recommendation to the Board of

In case the College of California shall surrender its property to the University, and said donation shall be accepted by the Board of Regents, and said College of California shall thereafter become disincorporate in pursuance of its proposition heretofore made to that effect, the graduates and those who shall have received the degrees of that college shall receive the degrees from the University, and be considered in all respects graduates of the same. And the last above expressed provision shall apply to the previous graduates of any incorporated college of medicine, law, or other professional college which shall become affiliated with the University, as herein otherwise provided. The Board of Regents shall also confer certificates of proficiency in any branch of study upon such students of the University as, upon examination, shall be found entitled to the same. The style of diplomas and degrees shall be: "University of California, College of Agriculture," or with the name of the other respective college; but honorary degrees for the higher degrees, not lower than that of Master of Arts, may be conferred, with the designation of the University alone, upon persons distinguished in literature, science and art.

POL. C. SEC. 1397. The examinations for degrees must be annual. Students who have passed not less than a year as residents in any college, academy, or school in this State, and who, after examination by the Faculty thereof, are recommended by them as proficient candidates for any degree in any regular course of the University, must be examined therefor at the annual examination; and on passing such examination may receive the degree and diploma for that course, and rank as graduates.

POL. C. SEC. 1398. All students of the University who have been residents thereat for not less than one year, and all graduates thereof,

may present themselves for examination in any course at the annual examinations, and, on passing such examination, may receive the degree and diploma of that course.

POL. C. SEC. 1399. Upon such examinations each professor and instructor of that course may cast one vote, by ballot, upon each application for recommendation to the Board of Regents for a degree.

POL. C. SEC. 1400. Graduates of the College of California, and of any incorporated college affiliated with the University, may receive the degrees from and rank as graduates of the University.

POL. C. SEC. 1401. The Board of Regents may also confer certificates of proficiency in any branch of study upon such students of the University as upon examination are found entitled to the same.

SEC. 10. Scholarships may be established in the University by the State, associations or individuals, for the purpose of affording tuition in any course of the University, free from the ordinary charges, to any scholar in the public schools of the State who shall distinguish himself in study, according to the recommendation of his teachers, and shall pass the previous examination required for the grade at which he wishes to enter the University, or for the purpose of private benefaction; *provided*, that the said scholarships shall be approved and accepted by the Board of Regents. POL. C. SEC. 1395. If approved by the Board of Regents, scholarships may be established in the University by any persons for the purpose of private benefaction or of affording tuition in any course of the University, free from the ordinary charges, to any scholar in the public schools of the State who may distinguish himself in study, according to the recommendation of his teachers, and who passes the examination required for the grade at which he wishes to enter the University.

See Stat. of April 1, 1870, page 149.

POL. C. SEC. 1428. Whenever a vacancy occurs in the Board, the Governor must appoint some person to fill it, and the person so appointed holds for the remainder of the term.

POL. C. SEC. 1429. The Governor is President of the Board.

POL. C. SEC. 353. The Governor, Lieutenant-Governor, Speaker of the Assembly, Superintendent of Public Instruction, President of the State Board of Agriculture, and President of the Mechanics' Institute of San Francisco, are ex officio Regents of the University of California. The appointment and terms of the office of the other Regents are provided for in Chapter I, Title III, of Part III, of this Code.

The Regents incorporated under the provisions of an act entitled "An Act Authorizing the Incorporation of Institutions of Learning" quoted at page 108.

The Regents are not public officers. Section 343 Pol. C. declaring them to be civil executive officers is unconstitutional.

Lundy vs. Delmas, 104 Cal. 655.

Hence they are not personally liable in an action for damages for injuries claimed by negligence in not properly maintaining a telegraph line on Mt. Hamilton. The corporation is charged with this duty, and the rule which makes a public officer answerable for neglect in the discharge of the duties of his office does not apply.

The lands and other property heretofore donated to the State by the President and Trustees of the College of California, and which are situated in the Township of Oakland, in the County of Alameda, for the purpose of erecting thereon an Agricultural College, and for other purposes mentioned in the deed of conveyance by which the same were so conveyed, shall be and forever remain vested in the State of California; as shall also be vested in the said State all property which shall be purchased by the funds of the State, or from the proceeds of donations made to the State for the purpose of the University, or of any of the colleges or professorships thereof; and the said Board of Regents shall have no power to alienate or incumber, by mortgage, hypothecation, lien or otherwise, any portion of said property except on terms such as the Legislature shall have previously approved; any act of the said Regents, or of any other person, which shall purport to have that effect shall be wholly null and void. All lands, moneys, bonds, securities or other property which shall be donated, conveyed or transferred to the said Board of Regents by gift, devise, or otherwise, including such property as may hereafter be donated and conveyed by the President and Board of Trustees of the College of California, in trust, or otherwise, for the use of said University, or of any college thereof, or of any professorship, chair or scholarship therein, or for the library, observatory, or any other purpose appropriate thereto, shall be taken, received, held, managed, invested, reinvested, sold, transferred, and in all respects managed, and the proceeds thereof used, bestowed, invested and reinvested, by the said Board

In case any incorporated College of Law, Medicine, or the like, shall be brought into the said University by affiliation, as herein otherwise provided, such college so affiliated may retain its own property, then possessed by it or thereafter to be acquired, to be invested in and held and managed by its own corporation, and the said Board of Regents shall have no right of property in or power of control over the same, nor shall be liable for any acts or contracts of such affiliated corporation.

A mortgage held by the Regents is the property of the State and is therefore not taxable.

Hollister vs. Sherman, 63 Cal. 38.

It should, however, be deducted from the full value of the property on which it is a lien in order to find the taxable value of that property.

People vs. Supervisors of S. F., 77 Cal. 136.

And it is expressly provided that no sectarian, political or partisan test shall ever be allowed or exercised in the appointment of Regents, or in the election of professors, teachers, or other officers of the University, or in the admission of students thereto, or for any purpose whatsoever; nor at any time shall the majority of the Board of Regents be of any one religious sect, or of no religious sect; and persons of every religious denomination, or of no religious denomination, shall be equally eligible to all offices, appointments and scholarships.

Legislative Appropriations

POL. C. SEC. 1415. The endorsement [endowment] of the University is:

1. The proceeds of the sale of the seventy-two sections of land granted to the State for a seminary of learning.

2. The proceeds of the ten sections of land granted to the State for public buildings.

3. The income derived from the investments of the proceeds of the sale of the lands or of the scrip therefor, or of any part thereof, granted to this State for the endowment, support, and maintenance of at least one college where the leading object shall be—without excluding other scientific and classical studies, and including military tactics—to teach such branches of learning as are related to agriculture and the mechanic arts.

4. The income of the fund set apart by "An Act for the endowment of the University of California," approved April second, eighteen hundred and seventy, which is continued in force.

6. The State of California, in its corporate capacity, may take by grant, gift, devise, or bequest, any property for the use of the University, and hold the same, and apply the funds arising therefrom, through the Regents of the University, to the support of the University, as provided in Article IX, section four, of the Constitution.

7. The Regents of the University, in their corporate capacity, may take by grant, gift, devise, or bequest, any property for the use of the University, or of any college thereof, or of any professorship, chair, or scholarship therein, or for the library, an observatory, workshops, gardens, greenhouses, apparatus, a Students' Loan Fund or any other purpose, appropriate to the University; and such property shall be taken, received, held, managed, and invested, and the proceeds thereof used, bestowed, and applied by the said Regents for the purposes, provisions, and conditions prescribed by the respective grant, gift, devise, or bequest.

8. 9. If by the terms of any grant, gift, devise, or bequest, such as are described in the preceding sixth and seventh subdivisions, conditions are imposed which are impracticable under the provisions of the Civil Code, such grant, gift, devise, or bequest, shall not thereby fail, but such conditions shall be rejected, and the intent of the donor carried out as near as may be.

Subdivision 6. See Chap. X, p. 103. Also note, p. 67.

Subdivision 7. All University property held by the Regents for the University is exempt from taxation whether taken by "grant, gift, devise, or bequest" or otherwise.

Hollister vs. Sherman, 63 Cal. 38.

Subdivision 8. Mortgages held by Regents are exempt from taxation.

Id.

And should be deducted from the value of the property, on which the lien exists, to determine its taxable value.

People vs. Supervisors of S. F., 77 Cal. 136.

Subdivision 9. The Legislature does not here use the word impracticable as a synonym for impossible and when H. D. Cogswell gave property to the University for the establishment and maintenance of a dental college and it afterwards appeared that the college was not sufficiently endowed in the first place, and that it had become absolutely impossible, for want of funds, to maintain and support it, then the object of the trust has failed in the sense that it has become impossible to carry it out; and under sections 871 and 2279 C. C. the trust and estate of the trustee ceases, and under Section 1109 C. C. the donor is entitled to a reconveyance of his gift.

Cogswell vs. Regents. Superior Court S. F. No. 15509.

Reported in SECRETARY'S REPORT, 1886: 40.

A resolution of the Regents of the University directing the investment of a fund bequeathed to establish a professorship is insufficient to show that the fund is inadequate to carry out the testator's intent.

Under Sec. 1317 C. C. which provides that, if the intention of the testator with respect to a charitable gift cannot have effect to its full extent, it must have effect as far as possible, a bequest to establish a professorship is not invalid because the amount is inadequate to establish the professorship.

Estate of Royer, 123 Cal. 615.

POL. C. SEC. 1433. The entire income arising from the endowment is subject to the trusts at the disposition of the Board of Regents for the support of the University.

SEC. 21. For the current expenditures of the University, specific sums of money shall be set aside out of the funds at their disposal, by the Board of Regents, which shall be liable to disbursement for that purpose, and shall be subject to the warrants of

POL. C. SEC. 1434. For the current expenditures of the University, specific sums of money must be set aside, out of the funds at their disposal, by the Board of Regents, which are subject to the warrants of the President of the Board, drawn upon the Treasurer of the University in pursuance of the orders of the Board of Regents.

put into operation the first years course of instruction in as many of the said colleges as possible. If the buildings of the University are not sufficiently completed at that time to be occupied for that purpose, the Regents are authorized to make temporary arrangements for sufficient buildings, the use of apparatus, and for other needful purposes, in the City of Oakland; if the same shall be practicable.

POL. C. SEC. 1439. Until the University buildings are ready for use, the Regents may make temporary arrangements for buildings at Oakland.

The said collections shall be arranged by the resident professors of the University in a separate building, which shall be denominated the "Museum of the University." To this museum shall also be added, as fast as the means of the University shall permit, collections of agricultural implements, and objects illustrative of the mechanic arts, science, architecture and the fine arts. Buildings:
General plans
to be adopted

SEC. 25. The Regents shall devise, and cause to be constructed, such buildings as shall be needed for the use of the University of California. Such a plan shall be adopted that separate buildings may be constructed and set aside for separate uses, yet such buildings shall be grouped upon a general plan so that such buildings may harmonize therewith, and be a part of one design. The construction and equipment of the buildings shall in every instance be let upon specifications and advertisement of not less than ten days in at least two daily newspapers of the City and County of San Francisco, to the lowest responsible bidder upon sealed proposals. The Regents may require adequate security from all bidders, and shall have power to reject any and all bids and advertise anew. They shall take measures for the immediate and permanent improvement of the grounds of the University, and may make such contracts therefor, or for any part thereof, as they may deem advisable. The provisions of all Acts for the erection of State buildings, or the improvement of the State grounds, in conflict with this Act, shall not apply to the grounds and buildings of the University of California.

SECTION 9. The University of California shall constitute a public trust, and its organization and government shall be perpetually continued in the form and character prescribed by the organic Act creating the same, passed March twenty-third, eighteen hundred and sixty-eight (and the several Acts amendatory thereof), subject only to such legislative control as may be necessary to insure compliance with the terms of its endowments, and the proper investment and security of its funds. It shall be entirely independent of all political or sectarian influence, and kept free therefrom in the appointment of its regents and in the administration of its affairs; *provided*, that all the moneys derived from the sale of public lands donated to this State by Act of Congress, approved July second, eighteen hundred and sixty-two (and the several Acts amendatory thereof), shall be invested as provided by said Acts of Congress, and the interest of said moneys shall be inviolably appropriated to the endowment, support, and maintenance

of at least one College of Agriculture, where the leading objects shall be (without excluding other scientific and classical studies, and including military tactics) to teach such branches of learning as are related to scientific and practical agriculture and the mechanic arts, in accordance with the requirements and conditions of said Acts of Congress; and the Legislature shall provide that if, through neglect, misappropriation, or any other contingency, any portion of the funds so set apart shall be diminished or lost, the State shall replace such portion so lost or misappropriated, so that the principal thereof shall remain forever undiminished. No person shall be debarred admission to any of the collegiate departments of the University on account of sex.

Coeducation

This section of the Constitution has the effect of keeping unchangeable the terms of affiliation of those Colleges so joined with the University prior to its enactment, and the form of their government cannot be changed.

It makes ineffective the attempt by section 343, Political Code, to designate the Regents Civil Executive Officers. The Regents are not public officers.

The University as created by this section of the Constitution and the legislation under it is a public corporation and an entity capable of taking by bequest. The fact that the Organic Act in terms provides that grants and gifts may be made to the Regents and to the State, and does not provide in terms that grants and gifts may be made to the University, does not indicate that it was intended that the University was to be incapable of taking by gift, grant or bequest.

The Finance Committee has reported as follows:

The decision rendered by the Supreme Court in the case of the Regents *vs.* January, settles several legal questions, and simplifies the methods of controlling University funds. In the opinion of the attorney of the Board, the following propositions may be accepted:

1. That funds in the hands of the State Treasurer belonging to the Consolidated Perpetual Endowment Fund can be drawn without a Controller's warrant.

2. That bonds in the custody of the State Treasurer may be withdrawn by order of the Board without the deposit of an equivalent in money or bonds.

3. That the Regents have sole control of all its investments, and that the State Treasurer and Controller cannot interfere with any action that may be taken by the Board of Regents in the investment of funds.

4. That it is a just inference from the said decision that the Regents can loan all the funds of the University not limited in the donation, upon real estate.

The above report indicates the policy of the Board as now understood and acted upon by the Finance Committee.

SEC. 15. This Act shall take effect and be in force from and after its passage.

Amendments to this Act were passed March 3, 1883, (Stats. 1883:26), and March 18, 1885 (Stats. 1885:203). The Act of 1883 assumed to transfer the control of the College to the Regents of the University and the Act of 1885 assumed to make another transfer by creating a Board of Trustees for the College, to consist of three, naming them and providing for the appointment of successors.

The Law College having affiliated with the University, had become an integral part thereof, subject to the same general provisions of the law as were applicable to the University. The Constitution of 1879 (Article IX, Section 9) declared that the University should be continued in the form and character prescribed in the Acts then in force, subject to legislative control for certain specified purposes only. Such being the case, it was not competent for the Legislature, by the Act of March 3, 1883, or that of March 18, 1885, or by any other Act, to change the form of the government of the University, or of any college thereof then existing. (See above, p. 67.)

People vs. Kewen, 69 Cal. 215.

For these reasons the subsequent Acts of 1883 and 1885 are not printed here.

Female students are entitled to admission in the Law College since its affiliation with the University.

This is the Act under which the Regents incorporated. It has been repealed by Section 288 of the Civil Code, but the repeal effected by that section related only to corporations formed after the Civil Code went into effect.

Reversion

CHAPTER XIV.

MEDICAL DEPARTMENT.

An Act concerning the Medical Department of the University of California.

[Approved March 3, 1881. Stats 1881: 24.]

Ineffective
change of name

SECTION 1. The Medical Department of the University of California shall hereafter be known and designated as the "Toland" Medical Department of the University of California, and all degrees, diplomas, scholarships, and records of the said department shall be made out, and all proceedings in connection therewith, shall be conducted in and by such name and designation.

SEC. 2. This Act shall take effect from and after its passage.

This Act is unconstitutional according to the reasoning of the Supreme Court in

People vs. Kewen, 69 Cal. 215, involving legislation concerning the Hastings College of the Law subsequent to its affiliation and the adoption of Art. IX sec. 9 of the Constitution of 1879.

The Law Committee of the Regents has reported as follows:

The following question was referred to this committee: Is the legal title to the Medical Department of the University that designated in the Act of the Legislature of March 1, 1881, "Toland Medical Department of the University of California?" This department was established April 1, 1873. Before that the transfer of the Toland Medical College property had been delivered. On that day the Regents adopted the following resolutions: "*Resolved*, That a college is hereby created and organized which shall be known and designated as the Medical Department of the University of California;" and thereupon the professors (including Dr. H. H. Toland) of the Toland Medical College, were elected to and accepted "chairs in the Medical Department of the University." No

change in the name of the college has been made by the Regents. The donation to the Regents was unconditional, and did not designate the name of the department, and they had authority to establish and designate such name. On January 1, 1880, the new constitution went into effect. It included the following provisions: "Article IX, Section 9. The University of California shall constitute a public trust, and the organization and government shall be perpetually continued in form and character prescribed by the Organic Act creating the same, passed March 23, 1868 (and the several Acts amendatory thereof), subject only to such legislative control as may be necessary to insure compliance with the terms of its endowments and the proper investment and security of its funds." It will be seen that at the time of the passage of the Act of March 1, 1881, directing change of name, the legislative control was limited (so far as considered here) to such matters only "as may be necessary to insure compliance with the terms of its endowments" and securing its funds. The control of the college funds is not involved in the name of a college, and, as stated above, the endowment was unconditional and did not designate the name of the department. The Act is, therefore, void. Consequently we answer that the legal title of the Medical Department is not the "Toland Medical Department of the University of California," but is the "Medical Department of the University of California." [Report adopted, May 14, 1889.]

PENAL CODE, SEC. 172. Every person who, within two miles of the land belonging to this State upon which any State Prison or reformatory is situated, or within one mile of the grounds belonging and adjacent to the University of California, or within one and one-half miles of the lands occupied by any home, retreat, or asylum, for disabled volunteer soldiers or sailors established or to be established by this State or by the United States within this State, or within the State Capitol, or within the limits of the grounds

adjacent and belonging thereto, sells, gives away, or exposes for sale, any vinous or alcoholic liquors, is guilty of a misdemeanor.

This section, amended April 3, 1876, and March 16, 1901, supersedes the Act of December 23, 1873, Stats. 1873-4:12 which fixed the limit at two miles and provided a different penalty.

This law is constitutional.

The Legislature has power to pass such an Act under the general authority to provide for the promotion, regulation, and preservation of the morals, health, and prosperity and general well being of the People of the State.

The last section of that Act is given here for its historical interest: It is not the intent of this law to lessen, encroach upon, or retard the academic and scientific courses provided for in said University, but to secure a system of physical training, with habits of order and discipline, in aid of mental and moral advancement.

Whenever the State has or shall become the owner of any property sold for taxes and the deed to the State has been filed with the Controller, upon which property there appears of record a mortgage to the Regents of the University of California, and such mortgage and the debt secured thereby have not been both paid in full and satisfied of record, the Controller, upon receiving proof, by affidavit of the President and Secretary, or Acting Secretary, or of the Treasurer of said Regents, that the debt secured by said mortgage has not been fully paid, shall direct the tax collector of the county, or city and county, in which such lands are situated, to execute a deed of such lands in the name of the State of California to the Regents of the University of California. Said tax collector shall thereupon publish a notice once a week for at least three successive weeks in some newspaper published in the county or city and county in which such lands are situated, or if there be no newspaper published therein, then said tax collector shall post a notice in three conspicuous places in said county, or city and county, at least three weeks before the day to be named in said notice as hereinafter provided. POL. C. SEC. 3535. All moneys, securities, or other properties arising from the sale of the seventy-two sections granted to the State for a seminary of learning, and from the sale of the ten sections granted to the State for the erection of public buildings, must be paid out of the State Treasury on the order of the Regents of the University.

An Act concerning the selection and sale of University Lands.

[Approved March 13, 1874. Stats. 1873-4:356. Section 1 amended April 9, 1880. Stats. of Cal. 1880:36.]

SECTION 1. In all cases when a contest shall arise between two or more persons concerning the right of such persons to purchase any portion of the one hundred and fifty thousand acres of land granted to the State for the use of an Agriculture College, if either party shall demand a trial in the Courts of the State, the Land Agent of the University, as the agent of the State, shall make an order, referring said contest to the Superior Court of the county in which the land involved is situated, and shall enter said order in the proper record book of his office; *provided*, that the party making such demand shall prosecute his contest to judgment within six months from the date of such demand, unless for cause satisfactory to the Court. Either party may bring an action in the Superior Court of the county in which the land in question is situated, to determine such conflict; and the proffer of a certified copy of the entry made by the said agent, shall give the said Superior Court full and complete jurisdiction to hear and determine said conflict; and upon the filing with the said agent of a copy of the final judgment of said court, he shall issue the certificate of purchase or other evidence of title, in accordance with said final judgment.

SEC. 2. Whenever any resident of this State desires to purchase any part of the one hundred and fifty thousand acres of land granted to the State for the use of an Agricultural College, he or she shall make an affidavit before any officer authorized to administer oaths, that he or she is a citizen of the United States (or if a foreigner, then that he has filed his intention of becoming a citizen), a resident of the State, of lawful age, that he or she desires to purchase said land, giving a description thereof by legal sub-

divisions, and that there are no improvements of any kind on said land other than those of the applicant; or if there be improvements other than his own, then he or she shall state that such improvements are the property of (giving his or her name), and have been upon the land for three months or over, and that the township has been sectionized and the plats of survey filed in the Land Office of the district in which the land is located, for three months or over, which application shall be forwarded to the said Land Agent of the University.

SEC. 3. This Act shall be in force from and after its passage.

The Amendment to Section One consisted merely in substituting the word "Superior" for "District" whenever the latter occurred.

Under this Act the affidavit accompanying an application for the purchase of University land, forming part of the Congressional grant for the use of an Agricultural College, need not state that there is no occupation of nor settlement upon the land other than that of the applicant.

A person who has never settled upon, occupied, or improved University land, cannot acquire a right of purchasing it as against an applicant to purchase who is an actual settler upon the land, and has improved it, and resided thereon with his family.

White vs. Douglas, 71 Cal. 115.

In an action of this kind both parties are actors and each must allege and prove all the facts upon which he relies as showing his right to become a purchaser, and the steps he has taken to avail himself of and secure such right.

Cushing vs. Keslar, 68 Cal. 473.

4.—General Receipt of the Regents to the James Lick Trust.

Whereas, James Lick, by a conveyance under his hand and seal, bearing date the twenty-first day of September, 1875, did convey unto Richard S. Floyd, Faxon D. Ather-ton, Senior, Bernard D. Murphy, John H. Lick, and John Nightingale, certain real and personal property in such deed described, upon trust, to sell and dispose of the same, and out of the proceeds, among other things, "to expend the sum of seven hundred thousand dollars for the purpose of purchasing land and constructing and putting up on such land a powerful telescope, superior to, and more powerful than any telescope ever yet made, with all the machinery appertaining thereto, and appropriately connected therewith, or that is necessary and convenient to the most powerful telescope in use, or suitable to one more powerful than any yet constructed, and also a suitable observatory connected therewith, and as soon as the telescope and observatory should be constructed, to convey the land whereupon the same may be situated, and the telescope, observatory, and all the machinery and apparatus connected therewith, to the corporation known as the Regents of the University of California; and if after the construction of said telescope and observatory there should remain

And whereas, Richard S. Floyd, William Sherman, Charles M. Plum, George Schönewald, and Edwin B. Trust
provision

the trusts specified in that certain deed of trust made by James Lick to Richard S. Floyd et als, dated September 21st, 1875, and recorded in the office of the County Recorder of the City and County of San Francisco, State of California, in Liber 810 of Deeds, at pages 26 et seq., and also recorded in the said County of Santa Clara.

R. S. FLOYD,
CHARLES M. PLUM,
E. B. MASTICK,
GEORGE SCHÖNEWALD.

Assignment For value received, we, Richard S. Floyd, Charles M. Plum, Edwin B. Mastick, and George Schönewald, as Trustees of "The James Lick Trust" hereby sell, assign, transfer and set over unto the Regents of the University of California the within agreement whereby Robert F. Morrow agreed to sell and convey to us when he shall have acquired the United States title, the real property in said agreement described, and all our right, title and interest therein and thereto, subject only to the payment in said agreement required by us to be made to him.

This assignment is without any covenant express or implied on the part of the assignors.

6.—James Lick Endowment.

Investment of Lick Observatory Fund. The Law Committee report that in their judgment it is necessary that the investment of the surplus of the \$700,000 turned over to the Regents by the Board of Trustees of the Lick Trust should be made in "good and safe interest-bearing bonds" of a public character, and not in private securities. The

examples of investment, as given in the trust deed of Mr. Lick, are "bonds of the United States, or of the City and County of San Francisco." Your committee are of the opinion that these are significant upon the point that the donor had in his contemplation only public, as distinguished from mere private securities. [Adopted, November 13, 1888.]

First—That said Affiliated College site is to be devoted
Conditions exclusively to the use and benefit of the Affiliated Colleges of the University of California, and no building shall be placed thereon which is not necessary or appropriate for collegiate purposes.

Second—That all buildings and structures erected thereon shall be, as far as practicable, fire-proof as against fire arising internally or externally, and no dwelling or residence shall be placed on said Affiliated College site, except a building for the use and residence of the janitors, which building shall be, as far as practicable, fire-proof, and so

far removed from the other buildings as to reduce the danger of fire therefrom to a minimum.

Third—That no building erected on the said Affiliated College site shall be nearer than twenty-five feet to the southerly prolongation of the westerly line of First Avenue.

Fourth—That the College buildings must be erected on said Affiliated College site, and said Affiliated College site and buildings must be used solely for the purposes of Affiliated Colleges of the University of California.

Fifth—That work on said buildings mentioned in said Act of the Legislature must be commenced by the party of the second part within six months from the date of these presents, and said College buildings, to the extent of the appropriation heretofore made therefor by said Act, must be completed within five years from the commencement of the work.

And the said "The Regents of the University of California," party of the second part, having duly accepted the said offer of said Adolph Sutro, party of the first part, subject to each and every of the conditions hereinbefore expressed:

Now, therefore, the said Adolph Sutro, party of the first part aforesaid, in consideration of the agreement and promise of the said the Regents of the University of California, party of the second part, to erect the said buildings for said collegiate purposes, and to faithfully keep and observe all and singular the conditions hereinbefore enumerated and set forth, has granted, sold, and conveyed, and does by these presents, grant, sell, convey, and confirm unto the said party of the second part, the Regents of the University of California, the land and premises hereinbefore particularly described, containing the area of thirteen and forty-three thousandths acres of land, together with all and singular the tenements, hereditaments, and appurtenances

thereunto belonging or in any wise appertaining; to have and to hold all and singular the said premises, together with the appurtenances, unto the said party of the second part and their successors forever, subject to the conditions aforesaid; but for breach upon the part of the party of the second part of any of said conditions, the title to the said land hereinbefore described shall revert to and vest in the said party of the first part, his heirs and assigns.

Reversion

In testimony whereof, the said party of the first part has hereunto set his hand and seal at the City and County of San Francisco, State of California, the day and year first in this indenture above written.

ADOLPH SUTRO.

[Duly executed.]

2.—Release by Mr. Sutro.

SAN FRANCISCO, May 2, 1896.

To the Regents of the University of California:

To the deed for the Affiliated College site executed by me to the Regents of the University of California, dated October 8, 1895, and recorded in the Recorder's office of the City and County of San Francisco, State of California, on the same day, was attached the condition that work on the College buildings must be commenced within six months and, to the extent of the appropriation therefor, completed within five years from the date of the deed. That condition has not been complied with, inasmuch as the work on the buildings has not been commenced, although six months from the date of my deed to you have elapsed.

This breach in one of the conditions of the deed results in the reversion to me of the title to the site, unless I grant an extension of time within which you were required to commence work.

You have requested that the time provided in the deed for the commencement of the work be extended six months. This extension of six months additional to that set out in the deed I hereby grant you. Extension

Should you fail to commence work within the six months additional—that is, on or before the 8th day of October, 1896—then it is understood that the title of the property reverts to me. All the other terms, conditions, and covenants of the deed heretofore made are continued in full force as therein made.

Very respectfully,

ADOLPH SUTRO.

3.—Resolution of Regents.

Be it resolved, That in view of the generous donation of the said site for the Affiliated Colleges, heretofore accepted, and the noble plans undertaken and promised by the Hon. Adolph Sutro, as expressed in his letters above set out, for founding and endowing a great public library in connection with said Colleges, this Board does now gratefully accept said undertakings so expressed in said letters; and in consideration therefor will proceed to erect said College buildings upon said site as provided by law, and will earnestly further the design of the Hon. Adolph Sutro in founding and completing the said Library and Library building; Acceptance

Further resolved, That this Board take this occasion to express its profound appreciation of the public spirit, devotion to learning, and the good of the commonwealth, so splendidly manifested by the Hon. Adolph Sutro.

[May 19, 1896.]

[A complete account of the negotiations with Mr. Sutro may be found in the SECRETARY'S REPORT for 1896, pp. 85 ff.]

CHAPTER VI.

D. O. MILLS ENDOWMENT.

426 CALIFORNIA STREET,
SAN FRANCISCO, July 7, 1881.

To the Board of Regents of the University of California:

Professorship
of Philosophy

GENTLEMEN: My interest in the institution over which you preside, and a desire to contribute to the benefit and support of good learning, prompt me to propose to you the establishment of a permanent foundation in the nature of a trust fund, of which the income shall be applied to the maintenance, in the University of California, of a Professorship of Intellectual and Moral Philosophy and Civil Polity.

Condition

The sole condition that I shall impose upon this trust and foundation is that the income only shall be devoted exclusively to the support of this professorship, and that any surplus shall be added to the original fund.

While I propose to commit this trust to the keeping of the Regents of the University, confiding in their wisdom to direct it to the promotion of the studies to which it is dedicated, and to the steady increase of human thought and progress, and would limit it by no narrow boundaries of transient opinion, I desire to record my views as to the nature of this professorship, and the character of man who should be called upon to discharge its duties.

The studies included under the general title pertain especially to man, his intellectual, moral, and social being, and can never cease to hold a high place in human learning, nor to have a great influence on human welfare. In the widest and most liberal meaning they underlie laws,

manners, and religion, and in effect form the public opinion of the world; and their teacher should not be one who merely resorts to them, takes them up, or incidentally adopts them, but one of philosophic spirit who shall devote his life to this appropriate field of influence and noble labor. To such a man this professorship offers opportunities limited only by his own genius and devotion.

For the above purpose, I inclose herewith my check for the sum of seventy-five thousand (\$75,000) dollars, and will be obliged if the Board will signify to me their acceptance of the trust.

Hoping that this may result to the advantage of the State and to the University,

I remain, gentlemen, very respectfully,

D. O. MILLS.

2.—Resolution of Regents.

Resolved, That the Regents of the University of California do accept with the liveliest emotions and the heartiest gratitude, the munificent gift of seventy-five thousand (\$75,000) dollars from D. O. Mills, upon the conditions expressed in his letter received this day, to establish a Professorship of Intellectual and Moral Philosophy and Civil Polity in this University.

Resolved, That in recognition of the living interest and broad views of the donor, the professorship thus endowed shall bear the name and title of the Mills Professorship of Intellectual and Moral Philosophy and Civil Polity, and that the wishes of Mr. Mills shall be consulted in the appointment of the first professor.

Title of chair

Resolved, That the Finance Committee be instructed to confer with Mr. Mills upon the best means of investing the above endowment fund.

3.—D. O. Mills Endowment.

WHEREAS, The D. O. Mills Endowment has reached an amount in excess of \$100,000;

Permanent Fund *Resolved*, That the sum of \$100,000 be reserved as a permanent fund in accordance with the terms of the endowment, and that the Chairman of the Finance Committee notify Mr. Mills.

[April 9, 1895.]

4.—Addition to Mills Endowment.

SAN FRANCISCO, April 26, 1902.

To the Board of Regents of the University of California:

GENTLEMEN: Nearly twenty-one years have elapsed since the founding in the University of the chair known, through your courteous action, as the Mills Professorship of Intellectual and Moral Philosophy and Civil Polity. By your wise administration of the fund which I was able to offer you for the support of the chair and its objects, the fund has itself been increased, and, supplemented by judicious subsidies from your other resources, has become the basis for the present large and successful Department of Philosophy.

Gratified at this result, and aware of the constantly increasing need of a greater income for the objects of the Department, I take pleasure in offering to your Board, as an addition to the present fund of \$100,000, the income of which is devoted to this purpose, the sum of fifty thousand (\$50,000) dollars, for which I inclose my cheque.

Condition To this increase of the original foundation I attach no other condition than that imposed upon the original trust in my letter addressed to your Board under date of July 7, 1881, to which I here beg to refer.

I will only add, that, as the present offer is intended to be a real increase of the total resources now applied to the support of the Department of Philosophy, I assume that the annual allowances made from the general fund of your Board in furtherance of the objects of the Department will continue undiminished. Further, I indulge the hope that your Board will second my addition to the original foundation by such increased allowances from your general fund as will insure the continuous growth and improvement of the Department, and a remuneration that will retain the high quality of professional service required in its staff of instruction.

Continuing to believe that the vigorous maintenance of such a Department is among the most important public objects of a University, especially one controlled and supported by the State, I remain, gentlemen,

Very respectfully and cordially yours,

D. O. MILLS.

5.—Resolution of Regents.

Resolved, That the Regents of the University of California accept, with the strongest sense of their increased debt of gratitude, the superb additional gift of fifty thousand (\$50,000) dollars from their honored fellow-citizen and former colleague, D. O. Mills, upon the conditions implied in his letter of April 26, 1902, this day received: to wit: to apply thereof the interest only to the exclusive support of the Mills Professorship and its proper objects, as the latter are expressed in the several branches of the Department of Philosophy established in the University through his original foundation of July 7, 1881.

Resolved, That in expressing to Mr. Mills their heartfelt thanks for this fresh exhibition of his public spirit, the Regents assure him that they will cordially coöperate with

him in the aims for which he has thus increased his foundation; and that they will seek so to administer the fund in the development of the Department of Philosophy as shall fulfill the purposes expressed in his letter.

[May 12, 1902.]

CHAPTER VII.

JANE K. SATHER ENDOWMENTS.

WHEREAS, Jane K. Sather has offered certain gifts to this corporation for certain purposes and trusts and upon certain conditions by a written communication in the following language:

"SAN FRANCISCO, CAL., October 9, 1900.

"To the Regents of the University of California:

"GENTLEMEN: As a resident of the State of California, and one who is deeply interested in its welfare, I am desirous of encouraging and assisting the work of liberal education which is now being carried on by the University of California. For this purpose I offer you the following property:

"This property I offer you as a corporate body upon the following conditions and for the following purposes:

"That it, or its proceeds, be held by you as a separate and perpetual fund, the income whereof shall be paid to me quarterly during my life, and after my death shall be

devoted by you to the perpetual support, maintenance, and equipment of such chair in a department of classical literature at the University of California as you in your discretion see fit to establish for this purpose, such chair to be known as the Jane K. Sather Chair, and such fund as the Jane K. Sather Chair Fund. You are to have the full and unrestricted rights of control, disposition, and ownership of the property constituting such fund, having in mind always the purpose of maintaining a perpetual fund properly invested so as to yield an income for the purposes heretofore mentioned.

Chair of

"I also offer you the following real property in this State:

"First—The premises in the City of Oakland forming the northwest corner of Jefferson and Ninth streets, with a frontage of seventy-five feet on Ninth Street and one hundred feet on Jefferson Street.

"Second—The premises in the City of Oakland on the west side of Broadway, thirty-four feet north of Delger Street, with a frontage of thirty-three feet and a depth of one hundred and thirteen feet six inches.

"This property I offer to you as a corporate body upon the following terms and conditions:

"That you have the full and unrestricted rights of control, disposition, and ownership of this property, or the proceeds of it, but that during my life you are to hold it,

or the proceeds of it, as a separate fund and keep the same invested according to your discretion so as to yield as large and steady an income as is possible consistently with safe investment and pay the income to me quarterly. After my death, so much of said property, or the proceeds of it, as amounts in your judgment to the sum of ten thousand dollars (\$10,000.00), shall be by you set aside and held as a separate and perpetual fund to be known as the Jane K. Sather Law Library Fund, the income whereof shall be devoted by you to the perpetual support of a law library at the University of California by way of the purchase of law books and publications.

Law Library
Fund

"In case any of said property, or the proceeds thereof, remains after setting aside therefrom the fund just mentioned, such remainder shall, up to the amount of ten thousand dollars (\$10,000.00), be expended by you in the purchase of law books and publications for the purpose of establishing, adding to, or maintaining a law library at the University of California. The times and occasions for expending this sum, or any portion or portions of it, shall be entirely within your discretion, and waiting the proper time and occasion for such expenditures you shall have the right to invest and accumulate the said sum, or the property representing it. Each book or publication purchased with these gifts, or the proceeds thereof, shall be plainly stamped with a suitable device expressing that the same has been purchased with funds donated by me to the University of California.

Remainder for
law books

Books to be
stamped

"In case any of said property, or the proceeds thereof, remains after setting aside the two foregoing sums of ten thousand dollars (\$10,000.00) each, then such remainder shall be devoted by you in such manner and at such times as you deem best to the advancement and support of the teaching of law at the University of California, in which case I ask you to take such means of permanently acknowledging this gift as you may deem advisable.

Further
remainder for
teaching law

"Upon receiving word from you of your acceptance of these gifts upon the conditions and for the purposes set forth, I will deliver to such officer as you may designate to receive the same, and give a receipt therefor in your name and on your behalf, proper instruments of transfer to you of the property specified.

"With the sincere and deep hope that these gifts may be a source of great good to the University, and through it to the State, I remain,

"Yours very respectfully,

"JANE K. SATHER."

AND WHEREAS, It is deemed for the best interests of the University to accept this very generous offer:

Now, therefore, be it resolved, That said offer be and is hereby accepted by this corporation, and that the property offered be taken, received, held, managed, and invested, and the proceeds thereof used, bestowed, and applied by this corporation for the purposes and trusts and upon the conditions prescribed in said communication, and that the President of the University and the Secretary of this corporation be authorized in its behalf to receive the property so offered and the instruments of transfer and evidences thereof, and to give a receipt therefor in the name of this corporation and under its seal, specifying that the said property is accepted by this corporation upon the conditions and for the purposes and trusts specified in the said communication. Acceptance

Be it further resolved, That the President of the University and the Secretary of this corporation be directed and authorized to transmit to Mrs. Sather a communication in the behalf of this corporation and under its seal informing her of the acceptance of her offer, embodying these resolutions.

[October 9, 1900.]

2.—Communication from Mrs. Sather.

The following communication from Mrs. Jane K. Sather was submitted to the Board:

"In October, 1900, I conveyed to you certain properties upon certain conditions and for certain purposes set out in my letter of acceptance of October 9, 1900. Among the properties so conveyed was certain land used as a residence in Ashland, Oregon. I was at the time occupying the place as a summer home, and because of this it seemed best that I should retain the legal control of it during my life. Accordingly the conveyance to you of this property reserved in me a life estate, while the conveyances of the other property were absolute. I have since given up any intention of personally occupying the place again and there is, therefore, no longer any reason why I should retain any legal estate in the property. I am informed that if the title remains as it is now some expense and trouble will be necessary at my death in order that the record may show that my estate has come to an end and that you are the full owners. In order to avoid this expense and trouble I enclose an absolute deed of the property to you. You are, of course, to hold the property upon the conditions and for the purposes specified in the letters mentioned. One of those conditions is that you are to pay me the income of the property, or its proceeds, during my life. This deed does not really change the relations between us in regard to this property, but simply avoids the necessity of any proceedings at the time of my death.

"I would also say that in my opinion it is advisable to sell this property and the property on the corner of Ninth and Jefferson Streets in the city of Oakland, if a price can be obtained that is at all proportionate to the income those properties yield. * * * I would suggest that you ascertain what price can be obtained for those properties and that

you sell them if a reasonable price can be obtained. I would ask you, however, to advise me before finally concluding a sale."

[Accepted April 8, 1902.]

3.—Jane K. Sather Library Fund.

OAKLAND, CALIFORNIA, October 27, 1900.

MY DEAR SIR: I give and deliver to you as representative of the University of California the following duly endorsed notes * * * \$5000, * * * \$5000 * * * with collateral, Certificates * * *

This gift is for the establishment of a fund, the income of which is to be used for the purchase of books for the library of the University of California. The gift of these two notes is absolute and I shall hope to receive a formal acknowledgment of this gift from the Regents of the University whenever it shall be convenient.

Yours very sincerely,

JANE K. SATHER.

CHAPTER VIII.

TOMPKINS ENDOWMENT.

To the Regents of the University of California:

* * * * I have prepared, and now offer for your acceptance, a deed of about forty-seven acres of land, with good title and free from incumbrance, at the junction of Broadway and University Avenue, Oakland, upon the following terms and conditions:

You shall forthwith establish, and as soon as practicable, fill a professorship of Oriental Languages and Literature in the University of California, with the same salary as the other regular professorships.

Purpose

You shall take possession of the land conveyed by me, and sell the same as rapidly as it can be done judiciously, until you shall have sold the whole, or enough thereof to produce the sum of fifty thousand dollars in gold coin. All the money so realized shall be set apart as an Endowment Fund for said professorship. It shall never be mixed with other funds of the University, or loaned in whole or in part to any other fund, or to the University itself, in any manner or on any pretext whatsoever. It shall be kept invested in mortgage securities upon unincumbered productive real estate within the limits of the present County of Alameda. If the income shall exceed the salary of the professor, the surplus shall be added to the principal, to provide as far as possible for the time when the rates of interest will be lower than they now are. * * *

Principal

Investment

Surplus

The salary of said professor, until the same can be paid from the income of said endowment fund, and all expenses of the execution of this trust or of the investment or reinvestment of the fund, shall be paid by the Regents, and no money thus paid, whether for salary or expenses, shall be deducted from said fund, or the subsequent income thereof, it being the intention hereof that neither said fund or the current income thereof shall ever be diminished by any claim for advances made on its account, on any pretext whatsoever. If said professorship shall not be kept up, or the conditions hereinbefore stated shall not be complied with, said land, or so much thereof as has not been sold, and the proceeds of all that has been sold, shall forthwith revert to me, my heirs or assigns, and shall be conveyed or payed over by said Regents without delay.

Reversion

Title

As a recognition of the debt of humanity to the great and good man now honoring our State with his presence, the said professorship shall be known as the "Agassiz Professorship of Oriental Languages and Literature."

As the department thus organized will at first not be fully employed, I hope that it may also be utilized for the

education of such young men as may come here for that purpose from Asia, upon such terms and under such restrictions as the Regents may prescribe. * * *

Said Regents are empowered to purchase lands and erect thereon suitable workshops and places of instruction, and to equip the same with such machinery, tools, and implements as, in their judgment may be necessary and proper; but I suggest to them that the expenditure for the purchase of said lands, and the construction and equipment of said workshops and places of instruction, be kept within such bounds as that the portion of said four hundred thousand (\$400,000) dollars thereafter remaining shall be able to produce an income sufficient to forever maintain

In the name of God. Amen.

I, Charles M. Hitchcock, of the City and County of San Francisco, State of California, being of sound and disposing mind and memory, do make, publish, and declare my last will and testament, in manner and form following, to wit: * * *

* Printed in full in SECRETARY'S REPORT for 1886, pp. 76 ff.

I do give, bequeath, and devise all the rest and residue of my estate, real, personal, and mixed, wherever the same may be situate, unto my executors hereinafter named, upon the terms, trusts, and conditions herein expressed.

I hereby invest my said executors with the power and discretion to increase this monthly allowance to my daughter to a sum not exceeding the income, if they shall be satisfied that such increase is necessary for her decent maintenance, or the support of any child or children she may have by said Coit, but not for the use, benefit, or advantage in any manner of her said husband. If all of the income is not paid to her, the remainder thereof shall be invested, and become and be treated as a part of the principal of said estate.

Should such child or children be the offspring of the present marriage of my daughter, then and in that case my said executors or trustees shall hold said estate in their hands until after the

death of said B. Howard Coit; and after his death the same shall be paid to, or transferred or conveyed to, such child then living, or its guardian, or to such children then living, share and share alike, or their respective guardians, in fee simple.

4thly—In the event of the death of my said daughter, without leaving issue her surviving, all that portion of my estate herein devised and bequeathed for her benefit shall be held by my executors or trustees, in trust, one fourth part thereof to be divided equally between my brother, Josiah H. Hitchcock, and my sister, Sarah A. Culbertson. To have and to hold to them, their heirs and assigns, one fourth to be paid or transferred or conveyed to the University of Maryland, for the benefit of the medical department thereof, and the other half thereof to be used by my executors or trustees, to establish a professorship in the University of California for free lectures upon scientific and practical subjects, but not for the advantage of any religious sect, nor upon political subjects, in payments to be made by my executors or trustees to my daughter; her sole and separate receipt therefor, without her husband joining therein, and without any legal or formal acknowledgment thereof, shall be the only sufficient acquittance to them therefor. * * *

Professorship

In Testimony Whereof, I hereto sign my name and affix my seal, this twenty-seventh day of August, 1872.

I do hereby revoke the power and authority given to my executors or trustees, in the fifth clause of my said will

to increase the monthly allowance of my daughter, Eliza W. Coit, over and above the sum of two hundred and fifty dollars per month, during the life of her husband, B. Howard Coit, and during the life of her said husband, I do direct that she be allowed no greater sum than two hundred and fifty dollars per month. * * *

In Witness Whereof, I hereby sign my name this tenth day of October, 1881.

C. M. HITCHCOCK.

[Duly executed.]

Hitchcock, deceased, situated in the City and County of San Francisco, State of California; in the County of Napa, State of California; in the counties of Macon and Graham, State of North Carolina; and near Cold Springs, in San Jacinto County, State of Texas; or elsewhere situated, which said University is or may become entitled to under and by virtue of the last will and testament of said decedent, which said last will and testament was admitted to probate by the Superior Court of the State of California in and for the County of Napa, on the 27th day of April, A.D. 1885; and be it further

Another fourth part thereof to the Regents of the University of California, for the purpose of using the net income of said fund for the benefit of the Physical Department of said University; requesting, but not directing, said Regents to pay over the net income of said fund to the head of said Department, to be expended by him in his discretion; said fund to be known as the Whiting Fund.

CHAPTER XV.

GIFT OF MR. H. WEINSTOCK.

SACRAMENTO, CAL., May 12, 1902.

To the Regents of the University of California:

GENTLEMEN—I hereby beg to hand you a certificate of shares of preferred stock of the Weinstock-Lubin Real Estate Company to the value of five thousand dollars, as a fund for the establishment of a lectureship on a plan somewhat similar to that of the Ingersoll Lectures of Harvard College: that is—one lecture to be delivered each year, on such day as may be designated by the President of the University, on this subject: "The Morals of Trade;" said lecture not to form a part of the usual College course, nor to be delivered by any professor or tutor as part of his usual routine of instruction, though any such professor or tutor may be appointed to such service. The choice of said lecturer is not to be limited to any profession or vocation, but may be that of either a professional or business man; the appointment to take place at least six months before the delivery of said lecture. Not to exceed one-half the annual income of said shares of stock may be paid to the lecturer for his services, the remainder to be expended in the publication and gratuitous distribution of the lecture, a copy of which is always to be furnished by the lecturer for such purpose. The same lecture to be known as "Barbara Weinstock Lecture on the Morals of Trade."

Lectureship
on Morals of
Trade

Yours truly,

H. WEINSTOCK.

2.—Resolution of Regents.

Resolved, That the gift made by Mr. Weinstock be gratefully accepted by the Board of Regents and applied to the purpose indicated by him.

CHAPTER XVI.

FROM THE WILL OF F. L. A. PIOCHE.

I give and bequeath to the University of California, known by the name of "Board of Regents of University," an establishment situate and about to be founded in the County of Contra Costa, State of California, all the paintings, sketches, engravings, drawings, and objects of art belonging to me, and which at the time of my death will be found [at the time of my death] at my house in San Francisco, at New Almaden, or elsewhere in the State of California. I also give and bequeath to said University all the books and various works, composing my library at San Francisco, and at New Almaden, as also everything that constitutes my mineralogical, geological, and conchological collection in San Francisco, State of California.

Conditions

These collections are partially classed, and a catalogue is partially made. I desire that they should be placed in a special portion of the buildings erected or to be erected for the said University, and that the room or place reserved for them be open to the public freely, and at fixed and frequent periods, as is the case with the museums in Europe, so that students and patrons of the arts and sciences may there instruct themselves and increase the sphere of their studies and their knowledge of facts that may be of use to hasten the progress and development of this country. In order the better to facilitate the execution of this wish of mine, I make a donation of five thousand dollars, which will be paid by my testamentary executors to the Treasurer of the said University, in gold coin of the United States, and placed at the disposal of the Regents and Trustees, to cover the first cost for arranging and preserving them—the objects composing the bequest and present made by me to the University of California.

CHAPTER XVII.

**GIFT OF LAND IN UKIAH BY THE INTERNATIONAL
GEODETIC ASSOCIATION.**

TREASURY DEPARTMENT,
U. S. COAST AND GEODETIC SURVEY,
WASHINGTON, January 4, 1900.

President BENJ. IDE WHEELER, *University of California*:

MY DEAR SIR:—The International Geodetic Association, of which the United States is a member, undertook, as you doubtless know, during last year a series of continuous observations for the variations of latitude in different parts of the earth.

For this purpose, it has established observatories on the same parallel at six different places. Two of these stations are in the United States—one at Gaithersburg, Md., and the other at Ukiah, Cal. The association has purchased a lot of about two acres in Ukiah, upon which it has erected the small observatory and a living house for the observer. When the land was purchased, it was discovered that the laws of California did not permit the conveyance of the title to such a body as the International Geodetic Association, and the title has been made out in my name for the time being.

I have suggested to Dr. Helmert, the Director of the International Geodetic Association, that this land should be conveyed in trust to the University of California for the purposes of the Association during the time that it shall continue to use the property, which, probably, will not be more than ten years, and that when the Association shall no longer need the property, it shall be available for the use of the University.

Trust

I shall be glad to know whether the University would accept the property in trust for the purposes now in use, and if so, what procedure I should begin to convey the title.

I regret that I did not have the pleasure of seeing you in California during August and September which I spent in San Francisco, and congratulate you on the auspicious future which the University is, doubtless, about to enter under your direction.

I am, very truly yours,

HENRY S. PRITCHETT,
Superintendent.

The President of the University was authorized to execute, on behalf of the Board of Regents and under the advice of the Attorney of the Board, all papers necessary to make an arrangement substantially as proposed by the Geodetic Association.

CHAPTER XVIII.

BERKELEY HOSPITAL ASSOCIATION.

At the meeting of the Board held December 9, 1902, resolutions of the Berkeley Hospital Association, offering to transfer to the Regents the sum of \$1865.25, the balance of all funds held by the officers of the association, together with a communication from the Prytanean Society offering an additional \$666.53 if the Board accepts the money from the Hospital Association, was referred to this Committee. We recommend that both of these sums be accepted and used for the purposes specified in the communications, but with the understanding that the Regents will not accept any responsibility for the erection and equipment of a hospital.

CHAPTER XX.

THE PHEBE HEARST ARCHITECTURAL PLAN.

PALACE HOTEL, October 22, 1896.

Regent J. B. Reinstein,

DEAR SIR: Referring to the conversation which I had last week with yourself and Professor William Carey Jones, I desire to say that I am deeply impressed with the proposition now before the Board of Regents to determine upon a comprehensive and permanent plan for the buildings and grounds of the University of California, on the site at Berkeley, and I heartily approve of the idea.

My son and I have desired to give some suitable memorial which shall testify to Mr. Hearst's love for and interest in this State, and after having carefully considered the matter, we feel that the best memorial would be one which would promote the higher education of its people. And I must confess that the absence of a suitable plan for the University buildings has seemed an obstacle in the way of carrying out some ideas which we have cherished.

I feel now so imbued with the importance to the University and to the State of having such a plan that I should be glad to aid in its complete and speedy realization. I may also say that I am the more anxious for this, as I have in contemplation the erection of two buildings, one of them to be the memorial referred to.

I would, therefore, suggest that I be permitted to contribute the funds necessary to obtain, by international competition, plans for the fitting architectural improvement of the University grounds at Berkeley. While I understand from you that such plans can be procured for about fifteen thousand (\$15,000.00) dollars, I desire to say that the success of this enterprise shall not be hampered in any way by a money consideration.

I have only one wish in this matter—that the plans adopted should be worthy of the great University, whose material home they are to provide for; that they should harmonize with, and even enhance, the beauty of the site whereon this home is to be built; and, that they should redound to the glory of the State whose culture and civilization are to be nursed and developed at its University.

Trustees As the full execution of these plans will probably require a long period of time, and one of constant and assiduous attention, I should like to suggest that this trust be reposed in a special committee which will represent the several interests involved. I would name as such trustees, His Excellency James H. Budd, representing the State; Professor William Carey Jones, representing the University, and yourself, representing the Board of Regents. I have the less hesitancy in suggesting these names, as these gentlemen are all graduates of the University of California, and would, I am sure, be glad to perform this labor in gratitude to their Alma Mater. Of course, the ratification of the final plan would rest with the Board of Regents.

I believe that the release of Mr. Maybeck (who has been identified with the idea of this plan from its inception) from his duties of instruction at the University, and his presence in the Eastern States and in Europe would greatly facilitate a proper understanding of our design among architects. I would, therefore, further suggest that he be given a leave of absence for one or two years, and I offer to provide for him a reasonable compensation.

Yours very sincerely,

PHEBE A. HEARST.

See index under "Hearst Plan."

CHAPTER XXI.

LOAN FUNDS.

1.—Frank J. Walton Memorial Fund.

The Board of Regents accepts from the members of the Class of '83 the sum of eighteen hundred (\$1,800) dollars, to be held in trust for the purposes hereinafter specified. The fund is to be known as the Frank J. Walton Memorial Loan Fund. It is to be invested by the Regents, and the income only to be loaned to the undergraduate students in the Academic Department at Berkeley, who are studying for degrees, and who have finished half their undergraduate course. The beneficiaries shall be selected by a committee, consisting of the President of the University and two members of the Academic Council, who shall be chosen by the Council for a term of three years. The choice of beneficiaries shall not be made on the ground of scholarship, but shall depend on general character and promise. The amount of the loan to each beneficiary, the term of the notes, and the question of interest, shall be left to the discretion of the said committee. The committee shall report to the Finance Committee of the Regents all receipts and disbursements on account of the fund. The promissory notes of beneficiaries shall be deposited in the office of the Secretary of the Board of Regents, but the names of the beneficiaries shall not be made public. Repayment to beneficiaries and the unused interest shall be reported to the Finance Committee, and added to the principal, and be invested by the Board of Regents. The amounts due beneficiaries shall be paid upon special requisition, signed by the committee and indorsed by the Finance Committee.

Beneficiaries

In vouchers submitted to the Board of Regents, the names of the beneficiaries shall not be inserted, and in their place shall be placed the names of the members of the Committee of the Faculty, or a majority thereof.

Surplus Whenever the repayments with the original fund shall exceed the sum of \$20,000, the committee may, in their discretion, establish out of the surplus, scholarships for undergraduates, or graduates pursuing studies at Berkeley, or make special loans for the use of graduates.

[November 12, 1889.]

2.—Class of 1886 Fund.

Purpose The Board of Trustees of the Memorial Loan Fund of the Class of 1886, University of California, have now on hand a fund of about \$2700. It was originally designed to raise and maintain intact as a permanent principal, the sum of \$2000, of which the interest should be loaned to students. We have, however, actually outstanding at present, student loans amounting to \$750.

Managing Board By the constitution of the Fund, the Board of Trustees is given power to pass the custody of the fund to the Regents of the University and the administration thereof to the President of the University, the Dean of the Faculty of Letters, and the Secretary of the Board of Regents as a managing Board.

This action we now desire to take, provided it is acceptable to and the trust is within the powers of your Honorable Board.

Upon receiving a favorable reply the Board of Trustees will take action indicated and I will transmit the moneys and student notes to the proper official.

The reasons for such action are, in brief, the greater security of the fund in the hands of the Regents, its greater productiveness in their hands, on account of exemption from taxation, and the greater facility with which it can be administered by the officers named.

In the natural course of events the present Board must lose control of the fund at some not very distant time, and it is thought that there is no reason for postponing the date for the change. The fund is now practically complete, and might as well be put upon its permanent foundation. Any further contributions received will, of course, be at once transmitted to the Regents, if this plan is carried out. [Communication from the Class of 1886.]

[On motion the foregoing offer was accepted with the thanks of the Board, April 8, 1902.]

3.—The 1903 Loan Fund.

The 1903 Loan Fund shall be administered by a committee of three, composed of the President of the University, the permanent President of the Class of 1903, and the President of the Associated Students.

Managing
Board

Application for a loan may be made by any college student having senior standing. No person shall borrow more than one hundred dollars in any one college year.

Restriction

Loans are to be repaid as soon as possible. Loans shall commence to bear interest, at the rate of five per cent., one year from the date of graduation or withdrawal of the student possessing the loan, from the University.

[Accepted.]

CHAPTER XXII.

THE UNIVERSITY MEDAL FUND.

Herewith is submitted a report of the Academic Council in relation to the University Medal Fund, without recommendation:

"BERKELEY, June 13, 1892.

"To the Board of Regents of the University of California:

"The Academic Council, approved by the several Faculties, begs leave to make the following statement and recommendations to the Board of Regents:

"1. That in 1871 the following communication was made to the Board of Regents, and by them formally accepted:

Purpose " 'We, the undersigned, desirous of furnishing a stimulus for the development of the best talent in the University, hereby agree to subscribe fifty dollars (\$50) each to a fund to be invested, and the proceeds annually to be applied to the purchase of a gold medal, of suitable design, to be awarded to the most distinguished graduate of each year.'

" 'April, 1871.'

" 'H. H. Haight, and others.'

"2. That the University being organized into many different colleges and courses, with widely varying curricula, the Academic Council has found it increasingly difficult to bestow the medal with satisfactory discrimination on 'the most distinguished graduate of each year.'

"3. That it appears to have been the primary purpose of the donors of the Medal Fund to 'furnish,' as they say, 'a stimulus for the development of the best talent in the University,' and that the Academic Council and the Faculties are of the opinion that the bestowal of a medal is not the most desirable means of accomplishing this purpose.

"4. That the action of the graduate of 1891, who had been recommended by the Academic Council to be the recipient of the medal, in declining to receive the award, seems to show a greater or less participation by the students in the view that the Academic Council and the Faculties take of this question.

"5. That the Academic Council and the Faculties at Berkeley recommend that appropriate steps be taken by the Board of Regents to have the form of the award changed from that of a medal to something more conducive to the primary purpose of the donors of the fund.

"6. That the Academic Council suggests that a Fellowship or Scholarship, to be awarded at the discretion of the Faculties, would be the most desirable substitute.

"That the Academic Council feels so keenly the difficulties and doubts under which it makes its recommendations for the award of the medal, that it is compelled to request that, if changes such as those suggested cannot be made, the principal of the fund be surrendered and restored to the original subscribers, or their heirs or assigns.

"M. KELLOGG,
"Chairman, Academic Council."

The report was referred to the Law Committee and the Counsel of the Board.

[June 28, 1892.]

The Law Committee reported as follows:

"The offer made in the year 1871, by the late H. H. Haight and others, of a sum of money to the University, the proceeds of which were to be invested and applied to the purchase of a gold medal, to be awarded annually to the most distinguished graduate of the year, and the acceptance of that offer by the University, and followed by the actual receipt of the money donated, constitutes a contract with all the terms of which the University is bound in law, as well as by every consideration of honor, to faithfully and scrupulously comply.

Trust to be
maintained

"In the judgment of the committee, it is of no importance that a compliance with the wishes of the donors has since become inconvenient or onerous; the trust they reposed in us—in the University—was absolute; it was upon the promise made on our part to forever devote the proceeds of the fund in the stipulated manner that they placed these moneys in our hands.

"Your committee therefore report that to now depart from the terms of the donation in any respect whatever is both unlawful and inexpedient."

[Adopted February 14, 1893.]

The Law Committee also reported verbally that the medal should be made and inscribed annually, and if not called for should be placed in the vault, to await the demand of the persons to whom awarded, or their descendants.

[Approved by the Board.]

Secretary to
prepare medal

The Secretary is authorized to prepare annually from the interest of the fund subscribed for that purpose, the University medal, to be awarded by the Board of Regents to the most distinguished graduate of the year.

[May 14, 1889.]

The proceeds of the Medal Fund shall be applied to the purpose of the donation.

[March 13, 1900.]

SCHOLARSHIPS.

1.—P. Charles Cole Scholarship.

Extracts from the will of the late P. Charles Cole, of Rochester, New York:

Second—I give, devise, and bequeath to the trustees of Vassar College, Poughkeepsie, New York, six thousand dollars (\$6,000.00) for a scholarship in said college; my heirs to have the preference, if qualified to enter the same, and if more than one, the President and one of the professors will decide which shall be admitted. The bequest is to be kept separate and distinct from any other funds of said college, and to be used for no other purpose; and if at any time of said college term no one is receiving the benefit of this bequest, the interest for the time is to be added to the principal.

Sixth—I give, devise, and bequeath to the trustees of the University of California, at Berkeley, California, one thousand dollars (\$1,000.00) for a scholarship in said university; my heirs to have the preference or benefit, if qualified to enter said university. My bequest to this university, Hamilton and Mills Colleges, and Rochester University, with restrictions as in my bequest to Vassar College. * * * Preference

In Witness Whereof, I have hereunto subscribed my name and affixed my seal, the 14th day of November, in the year of our Lord one thousand eight hundred and ninety.

P. CHAS. COLE.

2.—Phebe A. Hearst Scholarships for Young Women.

SEPTEMBER 28, 1891.

To the Board of Regents of the University of California:

GENTLEMEN: It is my intention to contribute annually to the funds of the University of California the sum of fifteen hundred (\$1500) dollars, to be used for five \$300 scholarships for worthy young women.

Two of these scholarships are to be given this year, and the remaining three at the beginning of the August term next year. I bind myself to pay this sum during my lifetime, and I have provided for a perpetual fund after my death.

Qualifications

The qualifications entitling students to the scholarships shall be noble character and high aims, it being understood that without the assistance here given a University course would, in each case, be impossible.

I desire that a school officer, say any County Superintendent in this State, shall recommend to the Faculty of the University the applicants for scholarships, the award being made by a vote of the Faculty, but I do not wish any scholarships to be given as a prize for honors in entrance examinations.

Mr. Irwin C. Stump, my business manager, will arrange the necessary formalities with the Secretary of your Board.

Yours very sincerely,

PHEBE A. HEARST.

SEPTEMBER 28, 1891.

J. H. C. Bonté, D.D., Secretary of Board of Regents:

DEAR SIR: The money for the scholarships for which I have provided will be paid half-yearly in advance, this year the sum being three hundred (\$300) dollars; and beginning with August, 1892, the amount will be seven hundred and fifty (\$750) dollars at each payment.

The students securing these scholarships are to be paid in ten monthly installments of thirty (\$30) dollars for each student.

Yours very truly,

PHEBE A. HEARST.

3.—State of California Scholarships.

WHEREAS: At the time of the passage, by the present Legislature, of the Act granting an additional income to the State University, it was suggested by members of the Legislature, that the sum of \$3,500 per annum should be set apart and used to aid poor and deserving students at the University,

Now be it resolved: That the said sum of \$3,500 per annum be, and is hereby appropriated until further order of this Board, out of the funds of the University, which sum is to be distributed equally among the Congressional Districts of this State, for the purpose of aiding, not to exceed twenty-eight (28) students per annum, at the University, such students to be selected by the Faculty of the University, solely by reason of their mental ability, character, and needs.

Distribution

The procedure and manner of the disposition of such scholarships to be, as far as may be, similar to that adopted in reference to the Phoebe Hearst Scholarships.

The said Scholarships shall always be known and designated as the State of California Scholarships.

[March 9, 1897.]

4.—Levi Strauss Scholarships.

SAN FRANCISCO, March 6, 1897.

Regent J. B. Reinstein.

DEAR SIR: I have noted in the newspapers that while the Legislature was considering the bill to increase the income of the University of California, a suggestion was

made to set apart \$3,500.00 per annum to aid worthy and poor students from each of the Congressional Districts of the State to obtain an education at that University.

I should be pleased to be permitted to duplicate the generosity of the State in the matter of said scholarships and request you to kindly communicate the terms of this letter to the Honorable Board of Regents of the University.

The University of California has already risen to a plane that challenges the admiration of the entire country, and I deem it a privilege to aid those connected therewith.

The proper officers are hereby authorized to draw on me each year, until further notice, for the sum of \$3,500.00. I am, dear sir,

Yours very truly,

LEVI STRAUSS.

The Regents resolved:

WHEREAS: The sum of \$3,500.00 has been set apart annually from the income furnished by the State to the University of California, to be distributed equally among the Congressional Districts of this State, for the purpose of aiding, not to exceed twenty-eight (28) poor and deserving students at the University, each year,

AND WHEREAS, Mr. Levi Strauss, of San Francisco, has duplicated the generosity of the State, for a like purpose, * * *

Resolved: That the disposition and procedure in connection with the said scholarships shall be similar in general to the procedure and disposition of the State of California Scholarships.

Resolved further: That the said scholarships shall be known and designated as the Levi Strauss Scholarships.

[March 9, 1897.]

[The Levi Strauss Scholarships are continued by the heirs.]

5.—Cornelius B. Houghton Scholarship.

BERKELEY, May 16, 1899.

To the Honorable the Regents of the University of California,

GENTLEMEN: It is the wish of Mrs. C. B. Houghton, of Benicia, to found in the University of California a scholarship to be known, in memory of her late husband, as the Cornelius B. Houghton Scholarship. I enclose, on behalf of Mrs. Houghton, a check for \$150, which sum she desires to be regarded as the income of such scholarship for the academic year 1899-1900. Mrs. Houghton has made provision for the eventual payment of a principal sum sufficient to yield an annual income of \$150. In the meantime she engages to pay yearly to the Regents of the University the sum of \$150 for the maintenance of said scholarship.

The qualifications for this scholarship Mrs. Houghton desires to be character, ability, and need, and she wishes it to be bestowed in the same manner and by the same authorities as the Phoebe Hearst Scholarships. On account of the fact that Mr. Houghton's life was long identified with Benicia, Mrs. Houghton expresses the wish that, other things being equal, a preference may be given in the award of this scholarship to students who may reside in or be otherwise connected with Benicia or its neighborhood. * *

12.—*To the Regents of the University of California:* Certain friends of the University, including alumni, Regents, members of the faculty, Seniors, and others, adopting a plan originating in the Golden Bear Society, offer to build, at an expense of not less than three thousand dollars, and to present unconditionally to the University, a hall for the use of the Senior Class, to be known as Senior Hall, and to be used for general gatherings of the class, Senior committee meetings, and such functions as the Senior Singing. It is suggested that the building should be situated in the cañon, immediately east of the Dining Association, and built according to plans drawn by Professor John Galen Howard, Supervising Architect of the University, who has kindly offered his services in this connection. It is believed that such a building would be of great service to the University in furthering unity, loyalty, and good feeling, and in promoting that leadership of the Senior Class which is so important for the best interests of the University.
